**Galerie Gmurzynska** will return to Art Basel Hong Kong with a booth featuring a special solo presentation by contemporary U.S. artist, **Scott Campbell**.

Campbell is known for his intricate works in a variety of exceptional mediums. Highlights in Hong Kong will be his large *Fuse Paintings* that are created using designs drawn with gunpowder then lit and his sculptures and reliefs laser-cut from stacks of U.S. currency. Campbell is at the forefront of a generation of young artists reintroducing craftsmanship and skilled techniques into their artwork. In addition to his artistic career Campbell maintains an active practice as one of the most renowned tattoo artists in the world. His living designs can be seen on Marc Jacobs, Penelope Cruz, Johnny Depp, Nan Goldin, Elizabeth Peyton, Carter Foster (tattoo designed by Ellsworth Kelly) and Richard Prince among many others.

In two separate kabinetts we will feature highlights of living master, **Fernando Botero** and **Wifredo Lam**, the only 20th century classic modern artist of Chinese origins.

Galerie Gmurzynska will also show an important selection of works by 20<sup>th</sup> Century Classic Masters.
